

## 32<sup>nd</sup> ANNUAL CONFERENCE OF THE CAMEROON BIOSCIENCES SOCIETY (CBS): FIRST ANNOUNCEMENT

**BANDJOUN, FROM 26 TO 29 NOVEMBER 2025**

**Dear Members of the Cameroon Biosciences Society (CBS)**  
**Dear Professors, Researchers, Students and Friends**  
**Dear Sponsors,**

We are delighted to announce that the Evangelical University Institute of Cameroon (IUEC), based in Bandjoun, Koung-Khi Division, West Region-Cameroon, will have the honour of hosting the 32nd Annual Biosciences Conference from 26 to 29 November 2025. This is the first time IUEC organizes this event.

Under the theme: "Integrated and multidisciplinary approach to sustainable management of ecosystems, global health and prevention of emerging diseases", the BIOSCIENCES conferences have been organized by the Cameroon Biosciences Society (CBS) since 1988 to stimulate research and scientific collaboration between researchers from all over the world.

The world is increasingly aware of climate change and the socio-economic and environmental changes that are affecting the health of ecosystems, impacting agricultural and livestock productivity, global health and the management of biological resources, and threatening the economic development of many countries. The theme of this conference invites academics, researchers, professionals, stakeholders and policy-makers to come together to tackle the current global challenges of sustainable ecosystem management. Through integrated and multidisciplinary approaches, participants will develop innovative concepts to ensure food security, mitigate emerging diseases, overcome the threats of climate change and adapt to socio-economic and environmental changes to achieve sustainable development.

The conference will focus on concepts leading to the achievement of several Sustainable Development Goals, including:

- **Interactions between ecosystem health, agriculture, and livestock production in disease prevention**
- **Biotechnological innovations for sustainable management of biological resources and global health**
- **Impact of climate change and pollution on agricultural productivity and ecological resilience**
- **The challenges of antimicrobial resistance in agricultural, veterinary, and medical practices**
- **Artificial intelligence, education, and research in the service of "One Health" in sub-Saharan Africa.**

Open sessions will also be organized. During plenary sessions, workshops, exhibitions and informal get-togethers, speakers will share their ideas and approaches to solving a variety of problems concerning the improvement of animal and agricultural production, disease prevention, networking, financing, infrastructures, ecosystem health, global health, etc.

The Local Organizing Committee will be delighted to welcome to Bandjoun stakeholders from **the academic, industrial and commercial fields, philosophers, policy-makers, chemists, environmental and industrial specialists, sociologists, economists, doctors, pharmacists, etc., alongside Biology specialists**, for a meeting rich in fruitful exchanges, ideally supported by several networks and cooperation agreements.

#### PRACTICAL INFORMATION :

- **The host town of Bandjoun** is an attractive city with a rich history and culture.
- Bandjoun is easily accessible by bus and local flights via Bafoussam, the capital of the West Region of Cameroon.
- November is an excellent time to visit Bandjoun and the West Region as a whole, with its pleasantly humid climate.
- The IUEC in Bandjoun and neighbouring towns offer an excellent environment for this conference.
- An excursion to the **Royal Palace of the Bandjoun** Chieftaincy is planned to combine work and pleasure.

#### KEY DATES:

- Deadline for submission of abstracts: **19 September 2025**
- Notification of acceptance decisions: **around 3 October 2025**
- End of discounted registration: **10 October 2025**
- Closing date for registrations: **31 October 2025**

#### REGISTRATION FEES:

CBS members	Non-members	Industrial and commercial
<b>Solo students:</b> 10,000 CFA francs <b>Students in groups:</b> 35,000 CFA francs for 4 participants <b>Researchers:</b> 20,000 CFA francs	<b>Solo students:</b> 15,000 CFA francs <b>Group:</b> 55,000 CFA francs for a group of 4 students <b>Researchers:</b> 30,000 CFA francs	<b>Clubs or associations:</b> 60,000 CFA francs <b>Foreign participants:</b> 55,000 CFA francs

#### REGISTRATIONS AND SUBMISSIONS:

We look forward to welcoming you to the 32nd Annual Biosciences Conference. The Local Organizing Committee is already working hard to ensure you have an excellent stay, skilfully blending the useful with the enjoyable.

We look forward to seeing you in November 2025!

**The Chairman of the Local Organizing Committee**

**Dr Ernest Claude Njoya**
